Quality guaranteed

In the field of roof waterproofing, high-quality materials and skilled workmanship can not only make a difference but actually save time and money. The KÖSTER BAUCHEMIE AG has been a worldwide leading manufacturer of high-quality roofing and waterproofing membranes for over 30 years. With a high commitment to quality, KÖSTER stands behind its products and customers. That's why KÖSTER offers a comprehensive guarantee program for its TPO membranes: Premium and Premium Plus.

Upon conclusion of a warranty agreement with KÖSTER Premium your roof is protected depending on the membrane thickness for a period of 10 to 20 years. Additionally, labor and material costs are insured as well as any costs for the replacement of damaged parts included in the roofing system (such as wet insulation). With KÖSTER Premium Plus, protection goes a significant step further: any consequential damages incurred and resulting financial losses are covered by an extended product liability insurance policy from the leading German insurance company, Allianz AG.

Your benefits:

- The warranty covers all KÖSTER roofing products from the current valid price list at the time of warranty issuance
- An extended material guarantee of six years is provided for all member companies organized in the Central Association of Roofing Trades, ZVDH. The ZVDH has further details.
- Based on its proven quality over time, KÖSTER TPO membranes are additionally backed by a unique extended product liability insurance policy of 25 years from Allianz AG
- After the installation of KÖSTER products has been completed, the installer receives an exclusive warranty certificate stating the project details and building owner
- The warranty offers protection above and beyond the minimum legal requirements for a product warranty

100% Quality – KÖSTER TPO membranes

KÖSTER TPO Membranes stand out through their excellent application characteristics, flexibility, and weldability. The unique composition of polyethylene (PE) allows for the easy and uncomplicated welding of seams within a broad temperature range, requiring no unnecessary chemical cleaning while ensuring a durable bond to the membrane.

up to 25 years

KÖSTER TPO 2.0

The warranties listed in this brochure do not constitute a valid warranty or insurance policy. A warranty and/or insurance policy from KÖSTER BAUCHEMIE AG must be requested individually for each construction project and approved in writing. This information is non-binding and does not release the applicator from their responsibility for the correct application under consideration of the specific conditions of the construction site and for the final results of the construction process. The valid statements for testing and installation, acknowledged rules of technology as well as our technical guidelines have to be adhered to at all times.
